

# **ABLOY**<sup>®</sup> DOOR HANDLES

ARCHITECTURAL DESIGN

## SURFACE FINISHES

# Ideas and innovations - FINNISH DESIGN

Design means the appearance, feel, ease of use and, above all, functionality of a product. It involves an understanding of needs, innovation and the very best traditions. We want to make everyday life smoother and more secure for you.

The **ABLOY®** DOOR HANDLES bring a whole host of styles to your living environment: modern, traditional, youthful – whatever you desire. Small details add the finishing touches to an overall harmonious look. Abloy's range includes handle models designed by its own in-house design department as well as handles by top Finnish designers, such as Alvar Aalto, Harri Koskinen and Timo Sarpaneva.

### TABLE OF CONTENTS

Surface finishes	3
Abloy door handles	
- Exterior and interior door handles	4
- Interior door handles	14
- Toilet handles	16
- Handles for balcony doors	17
- Window handles and escutcheons	18
Escutcheons and toilet knobs	19
Door handle plate selection	20
Quick handle selection	22

When you're selecting a surface finish and material for a handle, we recommend taking into account not only the overall appearance of the space, but also the operating conditions of the handle and the amount of wear it has to withstand.

### OUR RANGE INCLUDES

- Brass handles which we recommend for use in exterior doors in residential buildings, in exterior doors, in public spaces and high traffic doors.
- Stainless steel handles which are suitable for use in both exterior and interior doors in residential buildings, for example.
- Aluminium handles for interior doors in public spaces.
- Zinc handles which are suitable for light interior doors.

To make it easier to find handles in the range, we have created a quick selection table which you can use to check the features available with your favourite handle.

### Antimicrobial **ABLOY® ACTIVE**

ACTIVE-coating now on all painted door fittings!

**ABLOY® ACTIVE** kills 99% of the most common bacteria in 24 hours and is also effective in combating MRSA.

The products in this brochure are available in all RAL colour chart shades to special order.

# ABLOY® EXTERIOR AND INTERIOR DOOR HANDLES

Did you know that..

ABLOY® handles can be installed anywhere, regardless of the door thickness?

## ABLOY® DOMUS 12

NEW!

Design  
Harri Koskinen

A long-term favourite updated with a new design. Also fits for **ABLOY® CONTROL+** home central locking. The inside handle is an **ABLOY® POLAR** handle or alternatively any other handle you'd like.

## ABLOY® DUETTO 8

Design  
Janne Loiske

This traditional and stylish DUETTO handle is a combination of classic and distinctive design. The handle is equipped with color panel which can withstand sub-zero temperatures and UV radiation. Panel color options: brown, red, green, blue, light and dark grey.

Our range of exterior and interior door handles includes products suited to both classic and modern design. Strong return springs facilitate the opening and closing of the door and help to keep the handle in the correct position.

## ABLOY® ONCUT 5

Design  
Pasi Pänkäläinen

This extremely discreet and elegant handle is a pleasure to look at and use. The handle is suitable for use in for public and residential buildings.

## ABLOY® FORUM 4

Minimalist, elegant handle is a high-quality and durable solution for new and renovated spaces

## ABLOY® FORUM 4

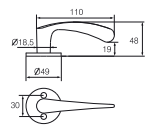

Interior door handles are smaller and more delicate handles than their exterior counterparts, and are designed specifically for interior use.

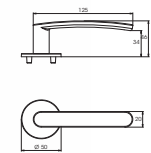

These door handles are made of zinc, which is especially suitable for indoor use. Our wide range of interior door handles also includes handles made from other materials, making for a versatile range of design solutions.

## ABLOY® TOILET HANDLES

Choose a toilet handle made from brass or stainless steel from our product range. You can check availability using the quick selection table on page 22.

When you want an easy and effortless solution for locking your toilet door, we recommend an ABLOY toilet handle. Turn the handle to the upright position and the door is locked - simple as that. **ABLOY®** 2025 lock case can be used with the toilet handle.

These special handles have been designed for doors and windows with an embedded espagnolette that closes the upper and lower part of the door or window. These espagnolettes are typically used in balcony, garden or backyard doors. Since the handles are bent to the side, there is sufficient elbow space for doors which open outwards.

## ABLOY® DH83

Select handles for both sides or simply an inside handle. The espagnolette handle is available in zinc or brass.
